SPEECH AIDE

Instructions for use of this card:

As you speak move your fingertip along, touching an X each time you say a word.

You control your delivery: the slower you touch, the slower you speak.

SPEECH AIDE

Speech difficulties can be one of the symptoms of Parkinson's Disease. We have produced this simple SpeechAide to assist sufferers of this problem and, in the interest of community health care, offer it FREE to all.

Anyone finding difficulty with their speech is welcome to take one.

With the compliments of
Central Coast Parkinson's Support Group

Our group meets 2nd Tuesday of every month at Niagara Park Community Centre, Washington Ave, Niagara Park, commencing 1.30 pm. All are most welcome.

For all enquiries telephone 02 4368 6454

"I have Parkinson's but Parkinson's does NOT have me."
